EXPERIENCE

Senior Software Engineer | Solution Lead
Solu Technology Partners / July 2015 - April 2024
- Promoted to solution lead within two years of college graduation
- Worked with approximately ten different interdisciplinary teams and four clients
- Full stack developer focused on Javascript, Java, C#, SQL, and MongoDB
- Adapted my skill set on demand as team membership and client priorities evolved
- Assisted in requirements gathering and guided scope negotiations to maximize the value to clients and meet deadlines
- Volunteered overtime as needed to ensure on-time delivery of milestones

Software Specialist | Cooperative Education
REDCOM / Cooperative education through R.I.T. / Nov. 2012 - Sep. 2013
- Assisted with the development of an administrative web application for telecommunication switches
- Converted over 80 JSP form pages to Javascript in less than one month using a custom wrapper for the datatables.net library
- Employed as part of the RIT cooperative education program and retained part-time following its conclusion
